To Our Friends:

"THE NAME SIGNIFIES BETTER PLANTS"

We realize that we have each and every one of you to thank and we are extending our deepest appreciation to all whose patronage has helped us attain this goal. We want to assure you that we will show our gratitude by constantly giving you the same quality and service as before.

This year we would like to make a special appeal to all persons using Azaleas and Camellias. For the Nurserymen, Florist, and Landscape Architect we can think of no other plant that can take their place. Florists, by all means, should take advantage of the increasing popularity of potted Azaleas for their holiday trade. By following a few simple cultural rules, they can be forced for most any date, from Christmas on.

To you who have not tried our stock, we extend a most cordial invitation to visit our place and see for yourself that "THE NAME SIGNIFIES BETTER PLANTS." For those who find a visit impossible, write us. Try us with one order; we know we can please you.

If we can be of any service please feel free to call on us at any time. Thanking you again for the favors and hoping you will have a pleasant and prosperous year, we remain,

Yours very truly,

TOM DODD NURSERIES.

ASSOCIATION MEMBERSHIP

To further the interest and growth of the different phases of our work and to keep posted on all affairs of interest to the trade, we maintain membership in the following organizations:

American Association of Nurserymen.

Southern Nurserymen's Association.

Southeastern Florist Association.

Alabama Nurserymen's and Florists Association.

Mississippi Nurserymen's and Florists Association.

Florida State Florist Association.

Texas State Florist Association.

Mobile Chamber of Commerce.

Mobile Junior Chamber of Commerce.

TERMS AND CONDITIONS

This is a WHOLESALE LIST and is intended for the TRADE ONLY. If it reaches those not entitled to trade prices we will thank any nurserymen or florist to advise us that we might correct our mailing list. Too, it would be better that you constantly

use your business stationery. This will identify you and help to keep the retail customers from getting the wholesale prices, and aid to both of us.

TERMS OF PAYMENT

CASH with order: 3% discount boxing fee. Open accounts to those with approved credit only.

SPECIAL DISCOUNTS for truck loads and carloads.

C.O.D. ORDERS must be accompanied by 25% of purchase amount. For a deposit of 25% on any order, we will hold same.

PRICES

Lots of 5, 50, and 500 of same variety and same size will be sold at the 10, 100 and 1000 rates. Specimen stock selected from or marked in the nursery by customers will be charged for according to its value. The prices will be a bit higher than the listed prices.

TRANSPORTATION

Please state how you want shipment made, whether by freight or express; also the route desired. When no instructions are inclosed, your order will be shipped in the manner that we think will serve best your interest without assuming the responsibility ourselves.

LIABILITY AND CLAIMS

We are not liable for injury to stock from frost, hail, fire, or other causes beyond our control and we book orders with that understanding. While we use every means at our command to secure prompt delivery, we are NOT liable for delays in transit. Our responsibility ceases upon delivery in good order to the transportation agency. Correction for losses lies between the buyer and the agency, but we will gladly render what assistance we can. Claims must be made immediately upon the receipt of stock.

NON-WARRANTY CLAUSE

We give no warranty, expressed or implied, as to the description, quality, productiveness or any other matter of any nursery stock, seed, bulbs or plants we sell.

GRADES

We grade liberally. All stock of specified sizes are well developed and well rooted. No effort or expense is spared to assure you the best plants possible and all plants must meet our required standard or otherwise will not be shipped to anyone.

REFERENCES

As to our standing and responsibility we refer to any bank or business house in Mobile, Ala., and the leading nurserymen of the United States, also The Mobile Chamber of Commerce.

AZALEAS

AZALEAS have been one of our specialties for many years and this season we are pleased to offer the largest stock of fine varieties we have ever grown. If you haven't been using our AZALEAS, either Specimen or Lining-Out, we wish you would give our plants a trial. We will please you with our AZALEAS as well as our other stock.

Azaleas can not be compared with any other species of plants with regard to their value as a landscape plant or a prolific blooming plant. All Azaleas are very floriferous and in the Spring each plant is a solid mass of blooms.

Azaleas are easy to grow if a few simple cultural rules are followed. They need a well drained soil that is slight acid in reaction. The use of peat moss and leaf mould in any soil is always beneficial. They also need plenty of water, especially during the dry, hot summer. Also partial shade, which will protect them from the hot sun, is desirable.

We have AZALEAS especially grown for the Florist. Try a few and see for yourself how nice they are.

INDICA AZALEA

A fast growing group of azaleas that are known for their large leaves and beautiful masses or large flowers. These plants are well-adapted for use along the coast, from Mexico to North Carolina. Their landscape value in the smallest yards or the largest estates is unequaled by any specie of plants.

Nurserymen and Landscape architects should see that each of their customers have a few of these Indica Azaleas. They will be more pleased with the results.

All of our plants are well rooted, have been root pruned and are guaranteed to have the best foliage color that can be produced. Try at least a few. You will be pleased with the sales of our good, beautiful plants.

We are listing only these nine varieties. These we think the best plants available in their particular color.

BRILLIANT—Good fast grower, with medium large dark green foliage. Deep watermelon color. A good variety. 6-8 inches to 18-24 inches.

CRITERION—Compact grower and late bloomer. Very attractive flower of strawberry color, streaked with a deep pink and edged with a white margin. 6-8 inches to 15-18 inches.

ELEGANCE—Fast and upright grower with light pink flowers that bloom early. 6-8 inches to 18-24 inches.

FORMOSA—(Known also as General Lafayette) Probably the finest of its color. Purplish pink, a strong robust Azalea with large dark leaves and large flowers. Blooms early and a fast grower. It is very hardy. 6-8 inches to 2-3 feet.

GLORY OF SUNNYHILL—Compact grower with shiny, narrow leaves. One of the latest bloomers with an orange-scarlet flower. 6-8 inches to 15-18 inches.

PRIDE OF MOBILE—(Originally known as Watermelon Pink) By far the best Indica Azalea. It is a fast grower with foliage a shade lighter than that of Formosa. Very hardy and a good bloomer, forming blossoms in masses that completely cover the plant. 6-8 inches to 2-3 feet. (See illustration.)

PRINCE OF ORANGE—A compact grower, slightly spreading with large flowers of a deep orange-red color. They bloom a little after mid-season. 6-8 inches to 12-18 inches.

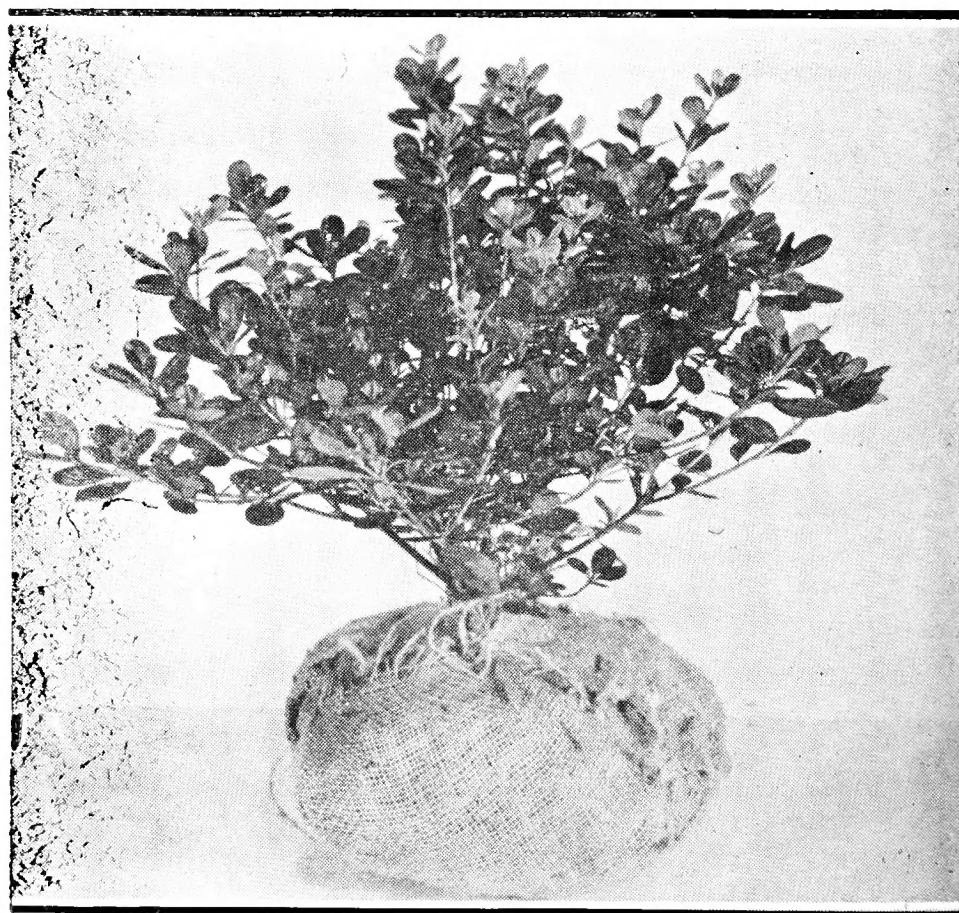

DAPHNE SALMON—With medium flowers, typical of the name in color, it is a very hardy plant that is ideal for greenhouse culture. 6-8 inches to 12-18 inches.

WHITE—Slightly upright and a fast grower with large pure white flowers. Very good for group plantings in informal gardens. 6-8 inches to 12-18 inches. Prices on Indica Azaleas:

	Each	10	100

2-3 feet with buds B&B.....	1.50	13.55	125.00

KURUME AZALEAS

The **KURUME** Azaleas have been known only about 17 years, but in that time they have made wonderful progress. Every garden needs a few of these, (some varieties will grow as far north as New York). They are also well adapted to forcing, thousands of them being sold for Christmas, Mother's Day, Easter and Decoration Day. They are comparatively easy to grow and they make such wonderful display that the demand is continually increasing. All **KURUME** Azaleas are extremely floriferous and in season the blossoms completely cover the plant. The colors are of almost every shade and hue as you will find below.

HINODEGIRI (12-15 inch spread)

BENIGIRI—Bright deep pink, single, mid-season and upright grower. Very pleasing. 4-6 inches to 15-18 inches.

BRIDESMAID—With clusters of large salmon-pink blossoms, this plant is a very good grower. Low and compact. 4-6 inches to 10-12 inches.

CHEERY BLOSSOM—Compact, slightly upright with large white flowers tinted with pink. 4-6 inches to 18-24 inches.

CHRISTMAS CHEER—Small, deep crimson flowers, compact plant that is good for pot culture. Very good for Christmas plant as it is profusely in bloom at that season. 4-6 inches to 12-18 inches.

CORAL BELLS—Coral pink, well shaped, hose in hose flowers. It is one of the best plants for floriculture. Small leaves and a compact grower. Very beautiful. 4-6 inches to 18-24 inches.

HEXE (Firefly)—Slow, compact grower with showy deep scarlet, hose in hose flowers. Small sizes to offer this year.

HINODEGIRI—One of the most popular of all Kurume Azaleas. Deep red flowers that are borne in brilliant clusters. Slow, compact grower that makes it good for a pot plant. Continuously a favorite. 4-6 inches to 15-18 inches.

Notice: Because of the unusual fine spread on the Hinodegiri, the price on these plants will be listed on the spread and not the height.

PEACH BLOW—A fast growing, slightly upright plant with single flowers of a peach color. Blooms in mid-season. 4-6 inches to 18-24 inches.

PINK PEARL—Another hose in hose type with large salmon-rose flowers that have a light center. Upright, yet compact grower. 4-8 inches to 18-24 inches.

SALMON BEAUTY—Large size, hose in hose salmon-pink flowers with light green foliage.

SALMON QUEEN—Large size, single flowers of salmon-pink are produced in great profusion in mid-season. One of the most attractive.

SNOW—Pure, snow white, hose in hose flowers that cover the plant. Dense and compact grower with dark green foliage. Best liked white azalea. 4-6 inches to 18-24 inches.

SUN STAR—Heavily borne, dark rose-pink flowers that are borne in clusters. Grows moderately and bears small dark green leaves. 4-6 inches to 15-18 inches.

SWEET BRIER—Single pink flowers, touched lightly with a peach tint. Compact and hardy with dark green foliage that makes a good background for the pretty blossoms. 4-6 inches to 10-12 inches. Prices on Kurume Azaleas:

	Each	10	100
4-6 inches from beds.....	\$	\$.80	\$ 7.00
4-6 inches with buds B&B.....	.30	2.50	20.00

15-18 inches with buds B&B....	1.10	8.50	75.00
18-24 inches with buds B&B.....	1.75	15.00	125.00

(Note)—If you need real large Azaleas for landscape planting write us your requirements. We can furnish you with many varieties of fine plants.

CAMELLIA JAPONICA

"The Aristocrat of the South," are without a doubt, the most beautiful, most pleasing, more satisfactory, more easily grown flowering evergreen we have. Surely none present a greater variety of beautiful colors.

Camellias are one of our most useful plants. They are used by florists for pot plants and design work; by nurserymen and landscape architects, for old fashion gardens, accent and specimen plants in formal or informal gardens.

Camellias are easy to grow. They must have plenty of moisture yet a good drainage is one of the most important cultural factors. The use of acid reacting fertilizers such as cotton seed meal and phosphate and well rotted cow manure is recommended. The small plants require partial shade while the older plants can stand complete sunshine.

Camellias are more disease resistant than most other evergreens; however, occasionally some are attracted by Camellia and Tea Scale. This scale may be readily controlled by the use of an oil emulsion spray (Volke 1 part to 50 parts of water.) When using this material the plants should be sprayed early in the morning or late in the afternoon, in order to prevent scalding the leaves. Camellias should never be sprayed during the Winter months.

Other than those listed we have Camellias in larger sizes and some of the new and rare varieties. We will be pleased to submit prices on request.

CLASS "A" CAMELLIAS

ALBA PLENO—Large, snow-white, double flowers that bloom early.

CHANDLERI ELEGANCE—A very large, peony shaped flower with a red and white variegation, the stamens and petals being either closely or loosely formed.

HERME—One of the most popular Camellias, a pink and red variegation with a white margin in a loosely, peony-shaped, large flower.

MADAM "C"—A seedling developed in our nurseries to become one of the most beautiful semi-double camellias. It has symmetrically-shaped, red wax-like petals with a soft, velvety orange tint. Holds blossoms for an unusually long period.

MONARCH—Huge dark pink flowers of a peony shape type on a small compact plant that makes quite a picture when the plant is in full bloom.

PINK PERFECTION—Early blooming flower with symmetrically shaped petals of a soft shell pink color. Plant blooms profusely.

PROF. C. S. SARGENT—Very thick, peony form. Solid crimson, medium size.

SEMI-DOUBLE BLUSH—Very light pink color, almost white of a semi double formation of petals and stamens, the latter being a very bright yellow.

	Each	10	100
3-5 inches	\$	\$ 1.50	\$12.00
6-8 inches B&B.....		3.00	25.00

24-30 inches B&B Specimen.....	3.50	30.00	
30-36 inches B&B Specimen.....	4.50	40.00	

CLASS "B" CAMELLIAS

MRS. ABBY WILDER—Medium, double white flowers often with splashes of pink.

AUSTILL PINK—Pink flower, a semi-double of medium size. The bush is a fast grower.

BEALLI ROSEA—Flower similar to that of Pink Perfection but of a darker shade. Very double and medium size.

BROWN'S RED—A very dark red camellia of a semi-double type.

DUKE DE ORLEANS—A pink-splashed, creamy white flower of a peony shape with stamens intermixed with the center petals.

ELIZABETH—Snow white flowers that are very double and with petals that are crinkled or frilled at the end.

GLOIRE DE NANTES—Large size, semi-double. Cerial. Very dark green foliage. Fast grower.

JARVIS RED—Another dark red, semi-double flower with bright yellow stamens. A favorite.

MADAM STREAKALOFF—Peony form, light pink petals streaked with small stripes of crimson.

MATHOTIANA ALBA—A very double white that opens like a rose-bud. Medium size flower that comes late.

PRINCE EUGENE NAPOLEON (Pope Pius IX)—Good size, very double scarlet flower; early to mid-season. Compact grower.

ROSE EMRY—Crimson peony form of medium size, early in season.

T. K. VARIEGATED—A light and dark pink variegation of semi-double type with bright yellow stamens.

12-18 inch B&B.....	.75	6.00	

CAMELLIA SASANQUA

Recently introduced into this country but are fast becoming widely known and popular with the flower lovers. They bloom before Japonicas, generally from September to December. Variation of blooms, similar to Camellia japonica but with smaller leaves. Their slender branches give a special attraction in landscape planting. Every Camellia lover should have a collection of these C. sasanquas. (Varieties as follows)

Mine-No-Yuki—Snow on the Mountain.

Flowers large, full double peony form of pure white. Leaves are small roundish, branches spread out in habit. Blooms very freely at an early age.

Shell Pink

Large single shell pink. Upright fast and compact grower with deep green foliage. A good free bloomer.

	Each	10	100
6-8 inch C. T.....	\$	\$ 1.50	\$12.50

ORIENTAL MAGNOLIAS

The most beautiful of all flowering trees. This group of Magnolias are known the world over for their beautiful blooms. They are quite hardy in most northern parts of the United States. Magnolias are becoming more popular year by year and each nurseryman should see that he has a few plants and that his customers have at least a few plants of each variety.

(Note: Magnolias must be fertilized and worked regularly to assure proper blooms in the spring. Nurserymen should advise their customers.)

MAGNOLIA LILIFLORA (M. Obovata)

Tulip-shaped, large size, purplish flowers before the leaves appear. Many stems from the ground. A fast grower and free bloomer.

MAGNOLIA LILIFLORA NIGRA, Purple Lily Magnolia.

A vigorous grower, unusually attractive with its wine-colored flowers and distinct leaves. Blooms in early spring before leaves appear.

Prices on above two Magnolias:

	Each	10	100
2-3 feet B&B	\$1.25	\$10.00	
3-4 feet B&B	1.50	12.50	
4-5 feet B&B	1.75	15.00	
5-6 feet B&B	2.00	17.50	
6-8 feet B&B	3.00	25.00	

MAGNOLIA SOULANGEANA, Saucer Magnolia.

In mid-spring, before the leaves appear, the great furry flower-buds suddenly burst open, revealing enormous chalice-shaped flowers often six inches across. The flowers, waxy white, petals tinged with purple or rose; unusually attractive. Leaves large, glossy green.

3-4 feet B&B	\$1.75	\$15.00
